Technical Tracks

Following are the technical tracks and topics for the technical papers to be submitted in the conference.

Power, Energy & Control:
Control Systems, Instrumentation & Measurement, Dielectrics & Electrical Insulation, EHV AC & HVDC Transmission, Electric Vehicle/ Mobility, Energy storage & Battery Charging Techniques, Industrial Drives & Applications, Intelligent Transportation Systems, Power Electronic Converters, Power Quality & EMI, Power System Operation & Control, Power System Protection, Regulation & Electricity Market, Robotics & Automation, Smart Grid & Micro Grid Technologies, etc.

Electronics, Communication & Signal Processing:
Antennas & Propagation, Circuits & Systems, Communication, Consumer Electronics, & Electromagnetics, Electron Devices & Solid-State Circuits, Micro & Nano-electronics, Photonic Technology & Applications, Optical Communication, RF, Microwave, & Millimetre Wave Techniques, Ultrasonic, Ferroelectrics, Sensors & Sensing Systems, Signal, Image & Video Processing, VLSI design, Wireless Technologies, etc.

Computational Intelligence & Machine Learning:
Artificial & Augmented Intelligence and their applications, Big Data Analysis, Biometrics & RFID, Computational Intelligence, Computer Networks, Computer Vision, Image & Video Processing, Internet of Things, Machine learning, Wireless Networks & Security, 5G Networks & Cloud Computing, etc.

Mechanical Systems and Mechatronics:
Aerospace Engineering, Computational Fluid Dynamics, Composite Materials, Heat & Mass Transfer, Manufacturing Technology, Mechatronics, MEMS, Refrigeration & Cryogenics, Smart Materials & Mechanics, Solid Mechanics, etc.

Applied Sciences:
Applied Superconductivity, Bioinformatics, Biomedical Engineering, Computational Biology, Healthcare & Agriculture etc., Engineering in Medicine & Biology, Geo-informatics and Transportation Engineering, Geoscience & Remote Sensing, Nano-biotechnology & Applications, Nuclear Science, Pervasive Computing, Social & Humanitarian Implications of Technology, Statistical Methods, Stability Theory, etc.

About the Conference:

The Department of Electrical Engineering, Motilal Nehru National Institute of Technology Allahabad has successfully organized eight successive students' conferences titled: "**Students' Conference on Engineering and Systems (SCES-2012, SCES-2013, SCES-2014, SCES-2015, SCES-2019, SCES-2020, SCES-2022 & SCES-2024)**", which were technically sponsored by the IEEE Uttar Pradesh Section and co-sponsored by the IEEE Joint Society Chapter of IE/PEL/CS (Industrial Electronics/ Power Electronics/ Control System). Department is organizing the ninth sequel conference of SCES to motivate student scholars working in the area of Engineering and Systems. The conference will focus on the emerging areas in the field of Power, Energy & Control, Electronics, Communication & Signal Processing, Computational Intelligence & Machine Learning, Mechanical Systems and Mechatronics, Applied Sciences, etc. The aim of the conference is to provide a platform for research students to present original work done by them which leads to sharing of knowledge at a highly technical platform. The student researchers and academicians from various reputed institutes will be invited for presentations, deliberations, and discussions. It is proposed to have a 3-day program during **Mar 12th – 14th, 2027**. The technical program will comprise of keynote and tutorial sessions delivered by academic and industry experts of repute, and involve students' research work through oral presentations and technical exhibitions, etc.

About Electrical Engineering Department

The Electrical Engineering Department (EED) came into existence in the year 1961, with the objective to produce technical man power of high quality and promote research and development activity. With a modest beginning of introducing four year BE degree course in 1961, a post graduate programme in Electrical Machine / Power System / Control System was introduced in the year 1970-71. Currently, EED offers courses leading to a Bachelor of Technology in Electrical Engineering, Post Graduate and Ph.D programs in (*i*) Power Electronics and Drives (*ii*) Control & Instrumentation (*iii*) Power System and (iv) Cyber Physical System. The department has qualified and experienced faculty in all the related fields of Electrical Engineering viz. Electrical Power System, Electrical Machines, Control & Instrumentation and Power Electronics. The vision of the Department is to produce globally competitive technical manpower with sound knowledge of theory and practice, with a commitment to serve the society and to foster cutting edge research in Electrical Engineering pertaining to the problems currently faced by the country and the world.

Instructions for Authors:

1. First author of each submitted paper must be a student.
2. Prospective authors are invited to submit original and unpublished papers to the conference.
3. Papers should be submitted through the online paper submission system, using the prescribed paper template, available on the conference website: https://www.mnnit.ac.in/sces2027/sections/call-for-paper.html
4. All submitted papers will be screened for plagiarism. Papers found to violate the conference's publication and ethical guidelines may be rejected.
5. All eligible submissions will undergo a peer-review process, and the acceptance decision will be based on the recommendations of the reviewers and the Technical Program Committee.
6. At least one author of each accepted paper must present the paper at the conference.
7. Only accepted and duly presented papers that meet the conference's publication requirements will be considered for inclusion in **IEEE *Xplore*®.**
